

Water Level Sounder

Model: WLS

“Instrumex” make Water Level Sounder is a reliable instrument for measuring the water level and total depth in boreholes, wells, reservoirs etc. For the measurement the bob is lowered to the water level. When touching the level, a sensor effects the illumination of a signal lamp & an additional acoustic signal will be released by a buzzer.

When the probe is touching the water-level there is a conductive connection between the tip of the probe and the sensor-body. Thereby a circuit of the lamp and the buzzer will be closed.

Response is seen on LED plus an audible tone is heard. Features include: **Standard cable lengths: 100m**, also available in 150, 200, 250, 300 meters, with marking on every Millimeter / Centimeter / Meter. Reel-type spool for lowering cable and electrode assembly. Reel is mounted on a stand. Self-contained 9V (6F22) type battery power supply – no danger of shock from an outside power supply. Standard brass electrode. Reel handles are shaped to fit your hands. Accurate of reading. Each Water Level Indicator is supplied with a battery.

Tape Specifications of water level Sounder

- MATERIAL: Fiber-reinforcement Leatherette PVC Polished Measuring Tape
 - Two Wire
- STRENGTH is assured through an extreme tough Fiber-reinforcement.
- Reading Accuracy: +/- 0.5%
- Cable length with separate colour marking on every meter and centimetre
- Probe Diameter: >16mm

Audio, Visual Water level alerts signals

Water Level Sounder

Ordering Guide

SN	Description	Model No.
1	Water Level Sounder with 100m cable length	WLS-100
2	Water Level Sounder with 150m cable length	WLS-150
3	Water Level Sounder with 200m cable length	WLS-200
4	Water Level Sounder with 250m cable length	WLS-250
5	Water Level Sounder with 300m cable length	WLS-300
